Wednesdays, 7-9p, June 13-Aug 29

Tips

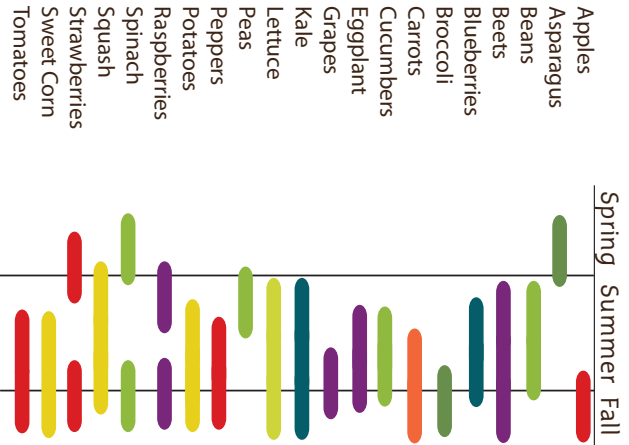

1. Arrive early for best selection
2. Bring a reusable bag for carrying home purchases
3. There are usually multiple vendors of each food offering
4. Make your purchases at the vendor's booth – there is not a central "check-out" area
5. Questions you might want to ask vendors about their offerings:
How were they grown?
Where were they picked?
When were they picked?
How do I prepare them?
What will you have next week?

Why Local Food?

- Local food is produced within **100 miles** of where it is sold
- Fresher and tastier.** Local food is grown for quality, not to withstand long travel times and distances
- Healthier.** Local food retains more nutrients and is grown using less intensive growing methods
- Better for the environment.** Local food has a smaller carbon footprint and supports a clean environment
- Better for our local economy.** Local food purchases retain dollars in our local economy and directly support local growers
